

quickmolding

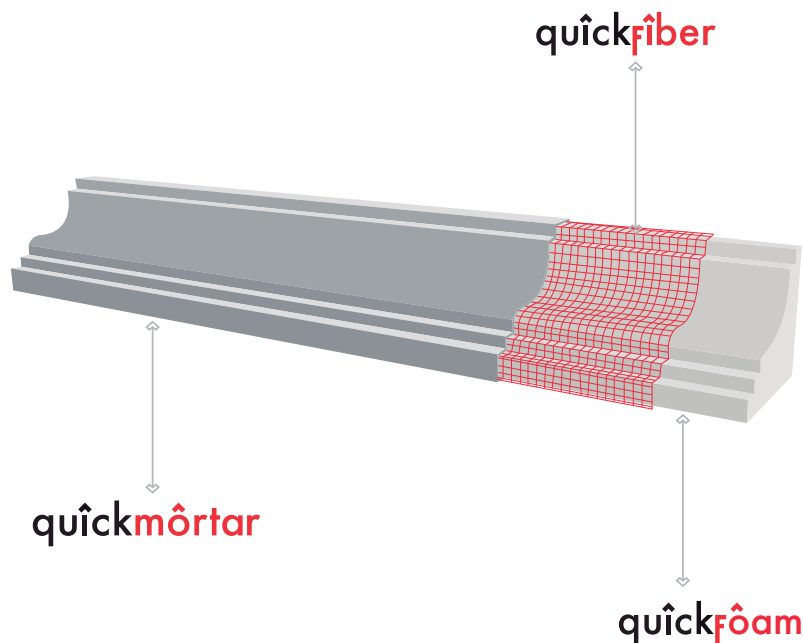

obtenir un excellent
 finition finale et
 décoratif en très
 court temps.

quickmolding c'est un produit né pour résoudre facilement les détails de construction à la fois dans l'architecture moderne et dans l'architecture traditionnelle, en évitant certains problèmes qui étaient généralement créés lors de la construction avec l'utilisation de produits traditionnels.

Le matériau de base dont est fait le quickmolding est l'EPS (polystyrène expansé) et le XPS (polystyrène extrudé), un matériau à haute densité bien connu pour ses excellentes propriétés isolantes qui lui confèrent le volume requis avec un poids réduit.

quickmolding Il est livré avec une finition de surface en mortier élastomère si vous souhaitez avoir un comportement esthétique similaire à la pierre, au béton, à la peinture classique, etc.
